

CHERYL A. MCKENZIE

AUTHOR • STORYTELLER • CREATOR

Stories that inspire. Hearts that connect.

About Cheryl

Cheryl A. McKenzie began her author journey after seeing a guided memoir book and realizing she could write her own story. That decision became Moments Along the Way and opened the door to The Together Collection and the children's world of Yonder Creek. Her work is connected by one idea: stories matter because people matter.

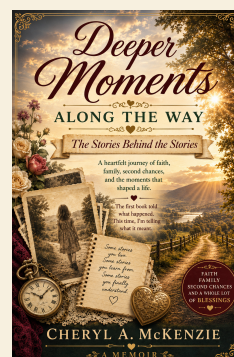

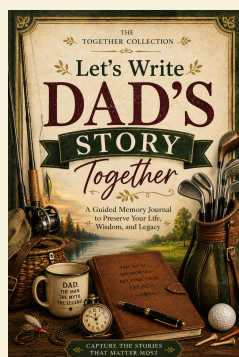

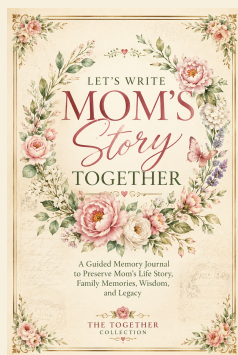

The Together Collection

Interactive keepsake journals designed to be experienced with someone you love—not filled out quietly alone. Ask the questions. Hear the stories. Laugh, remember, and create new memories while preserving the old ones.

Yonder Creek

Ohno the Opossum and his friends star in warm, playful adventures for young children. Cheryl hopes every story makes a child smile—and perhaps helps them relate, feel encouraged, or learn something along the way.
